

Title 42

May 8, 2023 • vajiramandravi.com

About Title 42:

- The COVID restrictions, known as Title 42, were first implemented under Republican then-President Donald Trump in March 2020 at the beginning of the pandemic.
- At the time, the U.S. Centers for Disease Control and Prevention (CDC) said the order was needed to stem the spread of the coronavirus in crowded detention settings.
- Title 42 allowed border agents to rapidly expel many migrants to Mexico.
- Since its inception, migrants have been expelled more than 2.7 million times under Title 42, although the total includes many repeat crossers and Mexico has generally only accepted certain nationalities.

Q1) What is the role of the Centers for Disease Control?

The Centers for Disease Control and Prevention (CDC) collaborates to create the expertise, information, and tools that people and communities need to protect their health through health promotion, prevention of disease, injury and disability, and preparedness for new health threats.
