

Bhu-Aadhaar

October 26, 2024 • vajiramandravi.com

About Bhu-Aadhaar:

- Bhu-Aadhaar is also known as **Unique Land Parcel Identification Number (ULPIN)**.
- ULPIN was **launched in 2021** as part of the Central government's Digital India Land Records Modernisation Programme (DILRMP).
- It aims to streamline and bring uniformity to the process adopted by states in assigning unique identification numbers to land parcels.
- It is accorded to a land parcel based on the **longitude and latitude coordinates** of the land parcel and depends on detailed surveys and geo-referenced cadastral maps.
- Under this initiative a **14-digit alpha-numeric identity** is given to each land parcel.
 - It contains State code, District code, Sub-district code, Village code and a Unique plot ID number.
- Once the ULPIN or Bhu-Aadhaar is generated, it is stamped on the physical land record document held by the owner.

- The same ULPIN will be permanently attached to the plot of land. Even if the land is transferred, sub-divided, or undergoes any change, the **ULPIN will remain the same** for that geographic boundary.
 - **Key objectives of ULPIN/Bhu-Aadhaar are**
 - To assign a unique ID to each plot of land for easy **identification and retrieval of records**.
 - To create accurate digital land records with details of land owners, plot boundaries, area, usage, etc.
 - To link land records and property registration processes
 - To facilitate online delivery of land record services
 - To assist in government planning by maintaining updated land data
-

News: 3 years on, 30% of rural land parcels have Bhu-Aadhaar. Centre pushes for completion by 2026
