Dhubri-Phulbari Bridge Latest News

59 percent work completed on 19.28 Km Dhubri-Phulbari Brahmaputra Bridge, according to reports.

About Dhubri-Phulbari Bridge

- It is an under-construction **4-lane bridge project over the Brahmaputra River connecting Dhubri in Assam and Phulbari in Meghalaya on NH 127 B.**
- The **length** of the bridge is **19.3 km**, which would make it the **longest river bridge in the country.**
 - It comprises a **navigation bridge stretching approximately 12.625 kilometers, complemented by approach viaducts on both sides**, with 3.5 kilometers on the Dhubri end and 2.2 kilometers on the Phulbari side.
 - It will have 199 pillars supporting the massive structure.
- The project's civil **construction work** is being **done by Larsen & Toubro (L&T) for the National Highways & Infrastructure Development Corp Ltd. (NHIDCL) and funded by the Japan International Cooperation Agency (JICA).**
- The project is estimated to cost Rs 3165.99 crore.
- The bridge will significantly reduce travel distances, especially between Phulbari in Meghalaya and Dhubri in Assam.
- It will **shorten travel by more than 200 km**, improving the connectivity of India's northeastern states with the rest of the country.
