World Wealth Report Latest News

India saw an 8.8 percent rise in high-net-worth individual (HNWI) wealth in 2024, witnessing 378,810 millionaires with a total wealth of $1.5 trillion by the end of last year, according to the World Wealth Report 2025 released recently.

About World Wealth Report 2025

- It is released by the **Capgemini Research Institute.**
- It **covers 71 countries,** accounting for more than 98% of global gross national income and 99% of world stock market capitalization.

Highlights of World Wealth Report 2025

- **The Global high-net-worth individuals (HNWIs)** population **rose by 2.6 percent** in 2024.

- This increase was **driven by the growth in** the population of **ultra-high-net-worth individuals (UHNWIs),** which **grew by 6.2 percent,** as strong stock markets and AI optimism boosted portfolio returns.
    - **HNWIs** are **individuals with investable assets of $1 million or more,** excluding their primary residence, collectibles, consumables, and consumer durables.
    - HNWIs are segmented into three categories based on wealth bands: **Ultra-HNWIs($30 million or more),** Mid-Tier Millionaires ($5-30M), and Millionaires Next Door (USD 1-5M).
- The data indicates that **alternative investments**, **such as private equity** and **cryptocurrencies**, are now an established presence in HNWI holdings, representing **15 percent of their portfolios.**
- Within the largest individual markets, the **U.S. was the clear leader, adding 562,000 millionaires** as the country's H**NWI population grew by 7.6% to 7.9 million.**
- This dominance in wealth extends across all tiers: **36% of the world's centi-millionaires** (those with over $100 million) and **33% of the world's billionaires reside in the United States.**
- **India and Japan** were **standouts in the Asia-Pacific region,** with both countries registering **5.6% growth,** adding 20,000 and 210,000 millionaires, respectively.
- In contrast, growth in **China was negative,** with the **HNWI population declining** by 1.0%.
- **India saw an 8.8 percent rise in high-net-worth individual (HNWI) wealth** in 2024, witnessing 378,810 millionaires with a **total wealth of $1.5 trillion** by the end of last year.
- The report further highlights **the presence of a growing segment of "millionaires next door," with India counting 333,340 individuals in this category,** holding a combined wealth of $628.93 billion.
- At the pinnacle of wealth, **India also saw 4,290 ultra-high-net-worth individuals** (UHNWIs) by the close of 2024, collectively **possessing $534.77 billion.**
