EnviStats India 2025 Latest News

Recently, the Ministry of Statistics and Programme Implementation (MoSPI), Government of India, released the 8th issue of the publication titled “EnviStats India 2025: Environment Statistics”.

About EnviStats India 2025

- EnviStats India has been published by the **National Statistics Office (NSO)** since **2018** in alignment with the **Framework for the Development of Environment Statistics (FDES) 2013**.
- The data presented in the publication are compiled based on the data, sourced from various Ministries, Departments, and Organizations of the Government of India.
- Following the structure of FDES 2013 the data presented in “EnviStats India 2025 are organized into **six components**, each corresponding to the **components of FDES 2013**.
- Related topics under each component have been grouped together to facilitate easier understanding and use.

Highlights of EnviStats India 2025

- The annual mean temperature increased from 25.05°C in 2001 to 25.74°C in 2024. Similarly, the **annual minimum and maximum temperature** rose from 19.32°C to 20.24°C and 30.78°C to 31.25°C respectively, during the same period.
- The **annual rainfall data** from 2001 to 2024 highlights significant year-to-year variability influenced by monsoon patterns. Despite this variability, the data does not indicate any clear long-term upward or downward trend in total annual rainfall.
- **Thermal power generation has increased** from 7,92,053 GWh to 13,26,549 GWh and Electricity generation from renewable energy sources has increased from 65,520 GWh to 2,25,835 GWh during 2013-14 to 2023-24.
- **Inland fish production** has **increased** from 61.36 lakh tonnes to 139.07 lakh tonnes during 2013-14 to 2023-24.

Significance EnviStats India 2025

- It is a key resource for policymakers, researchers, and stakeholders, offering **a comprehensive overview of the country's environmental landscape**.
- Through the analysis of key environmental indicators and highlighting emerging environmental trends, identifies pressing challenges, and **supports the development of evidence-based policies** aimed at achieving environmental sustainability and resilience.
