

Viksit Bharat Buildathon 2025, Registration, Eligibility, Theme

June 9, 2026 • vajiramandravi.com

The Viksit Bharat Buildathon 2025 is India's largest student innovation movement, launched by the Ministry of Education in collaboration with the Atal Innovation Mission (AIM), NITI Aayog, and AICTE. It aims to inspire school students of Classes 6-12 to ideate, innovate, and solve real-life challenges through creativity and teamwork. The initiative aligns with the national vision of Viksit Bharat @2047, promoting a culture of innovation and self-reliance from the grassroots level.

Viksit Bharat Buildathon 2025

Launched on 23 September 2025 by Union Minister for Education Shri Dharmendra Pradhan, the Buildathon will engage over 1 crore students from 1.5 lakh+ schools across India. The initiative encourages innovation in four core areas- Atmanirbhar Bharat, Swadeshi, Vocal for Local, and Samridhhi. It is not just a contest but a nationwide innovation platform that nurtures critical thinking, problem-solving, and entrepreneurial skills in students.

Viksit Bharat Buildathon 2025 Overview

The Buildathon embodies India’s vision to transform its education system into a creator-driven model.

------------	---------------------------------	--------------

Viksit Bharat Buildathon Eligibility Criteria 2025

To ensure fairness and inclusivity, the Ministry has laid down uniform participation rules.

- Teams must consist of 5-7 students from the same school.
- Each school can register multiple teams.
- Entries can be in prototype, concept, or working model format.
- Mentors (teachers) will guide teams during the preparation period.
- Entries will be evaluated by a national panel of experts based on innovation, feasibility, and social impact.

Viksit Bharat Buildathon Objectives

The Viksit Bharat Buildathon 2025 is more than an educational activity- it is a nation-building exercise. It seeks to ignite innovation among young minds and prepare them to lead India’s technological and developmental journey.

- Foster innovation culture in schools through experiential learning.
- Strengthen India’s position as a global innovation hub.
- Align school-level education with the goals of Viksit Bharat @2047.
- Encourage local problem-solving and sustainable entrepreneurship.
- Empower students from marginalized and rural communities.

Viksit Bharat Buildathon Challenges

The Buildathon has created an unprecedented wave of creativity and innovation. However, challenges such as digital divide, lack of resources, and mentor availability remain. India must now ensure sustainability and scalability of this movement.

Way Forward

These steps can turn the Buildathon into a continuous innovation ecosystem shaping India’s young innovators:

- **Expand Innovation Infrastructure:** Establish Atal Tinkering Labs in every district.
- **Teacher Training:** Conduct regular capacity-building programs for school mentors.
- **Public-Private Partnerships:** Encourage industry mentoring and **CSR** participation.
- **Digital Access:** Strengthen ICT infrastructure in rural and tribal schools.
- **Continuous Engagement:** Integrate Buildathon outcomes into long-term innovation programs.
- **Recognition and Patenting:** Support winning ideas with incubation and patent filing assistance.
