

Panamaram Heronry

November 4, 2022 • vajiramandravi.com

About Panamaram Heronry:

- Panamaram heronry is the largest breeding ground of different species of herons in the Malabar region.
- The heronry, formed on a sandbank on the Panamaram River, is a breeding ground for nine species of waterbirds.
- The tiny islet is a haven for globally threatened waterfowls, including the black headed-ibis, purple heron, large egret, median egret, little egret, pond heron, night heron, and little cormorant.
- The site is also the only location in State where the cattle egret breeds.
