

Samagra Shiksha 3.0 - Reimagining School Education Framework

January 10, 2026 • vajiramandravi.com

Samagra Shiksha Latest News

- The Union government has initiated nationwide consultations with States and stakeholders to chart a roadmap for **Samagra Shiksha 3.0** for the 2026-27 academic cycle.

Samagra Shiksha 3.0

- **Background and Evolution**
 - Samagra Shiksha is an integrated, centrally sponsored scheme for school education covering the entire continuum from pre-primary to senior secondary level.
 - Launched in 2018 by subsuming **Sarva Shiksha Abhiyan**, **Rashtriya Madhyamik Shiksha Abhiyan**, and **Teacher Education** schemes, it marked a shift toward a holistic and unified approach to school education.

- Samagra Shiksha 3.0 represents the next phase of this reform journey, aligned with five years of **National Education Policy (NEP) 2020** implementation and India's long-term vision of Viksit Bharat by 2047.

- **Core Objectives**

- Universal enrolment up to Class XII
- Reduction in dropout rates
- Improvement in foundational and grade-level learning outcomes
- Strengthening teacher capacity and school leadership
- Ensuring equity for socio-economically disadvantaged groups

- **Key Focus Areas**

- **Access and Infrastructure:** Bridging regional and social gaps in schooling facilities
- **Quality of Learning:** Age-appropriate learning benchmarks, curriculum equivalence across boards, and competency-based assessments
- **Teacher Capacity Building:** Continuous professional development, pedagogical reforms, and leadership training
- **Digital Education:** Integration of technology, digital platforms, and Artificial Intelligence in classrooms
- **Equity and Inclusion:** Support for girls, children with disabilities, SC/ST students, and aspirational districts

- **Governance and Planning Approach**

- A major shift under Samagra Shiksha 3.0 is the emphasis on consultative, bottom-up planning.
- States and Union Territories are encouraged to prepare robust annual plans grounded in local school realities while aligning with national priorities.
- The scheme promotes convergence among Ministries, States, and civil society to improve implementation efficiency.

News Summary

- A high-level consultation was held in New Delhi to deliberate on the future direction of Samagra Shiksha 3.0, bringing together State Education Secretaries, State Project Directors, central ministries, and education experts.
- The meeting aimed to develop a clear, implementable national roadmap for the next phase of school education reforms.

- **Key Themes of Deliberation**

- Bridging learning gaps exacerbated by pandemic disruptions
- Improving nutrition and learning outcomes simultaneously
- Integrating vocational education and skilling pathways within schools
- Leveraging digital tools and Artificial Intelligence for personalised learning
- Making schools active agents of social and economic transformation

- **Alignment with National Development Goals**

- The consultations highlighted that human capital development is central to achieving India's long-term growth ambitions.

- Strengthening school education was identified as the foundation for a skilled workforce, social mobility, and inclusive development.

- **Outcome-Oriented Vision**

- **Globally competitive**, while remaining rooted in Indian values
- **Responsive to diverse student needs** across regions
- **Outcome-driven**, with measurable improvements in learning indicators
- **Society-centric**, encouraging community participation in school governance

Road Ahead

- States have been urged to treat the 2026-27 planning cycle as a national movement rather than a routine administrative exercise.
- The convergence of best practices, technological innovation, and cooperative federalism is expected to strengthen India's school education ecosystem in the coming decade.
