

Miyawaki Forest

October 31, 2022 • vajiramandravi.com

About Miyawaki Forest:

- **The Miyawaki Forest** is named after the technique developed by Japanese botanist Dr Akira Miyawaki to plant saplings of various species close to each other to **develop a dense urban forest**.
 - Through the Miyawaki method, a **forest can be developed in just two to three years** while it takes at least 20 to 30 years through the traditional method.
 - The **growth of plants is ten times faster using this method** and as a result, the forest developed is thirty times denser.
 - The Miyawaki Forest will include a Native Floral Garden, Timber Garden, Fruit Garden, Medicinal Garden and a Digital Orientation Centre.
- **Maze garden:** Sprawling over three acres with a pathway of 2,100 metres, this is the **largest maze garden in the country**. It has been designed in the shape of a '**Shriyantra**', which is believed to bring positive energy to the place.
