

Tri-services Missile Command

October 3, 2022 • vajiramandravi.com

About:

- The proposed missile command will be responsible for deployment of missile and rocket regiments against any hostile adversary and will be manned by commanders of the three services in rotation.
- This means that conventional missiles like BrahMos and Akash as well as Pinaka rockets will be placed under one command for rapid deployment against any adversary.
- The proposal to set up a missile command has been moved in the aftermath of the May 2020 East Ladakh stand-off with the PLA and the use of rockets and missiles in the Ukraine theatre by the Red Army.
- The missile command will be on similar lines as the tri-services cyber command and the space command as the future wars will hardly have any contact between troops unless used for capturing enemy territory.
