Bharat Audyogik Vikas Yojna Latest News

Recently, the union Cabinet has approved the Bharat Audyogik Vikas Yojna (BHAVYA).

About Bharat Audyogik Vikas Yojna

- It aims to **develop world-class industrial infrastructure**, unlocking manufacturing potential and driving India's growth story.
- **Target:** Developing **100 plug-and-play industrial parks** across the country.
- **Implementation:** BHAVYA will be implemented in **partnership with states and private sector players**.

Features of Bharat Audyogik Vikas Yojna

- **Financial Scale:** Total expenditure of ₹33,660 crore, providing up to **₹1 crore per acre for park development**.
- **Plug-and-Play Ecosystem:** Provides ready-built factory sheds, testing labs, and underground utilities to enable industries to move from "intent to production" with speed.

- **Infrastructure Scope:** Covers core utilities, value-added facilities (warehousing), and social infrastructure such as worker housing.
- **Connectivity & Logistics:** Aligned with **PM GatiShakti** principles for seamless multimodal connectivity; external infrastructure support **is provided up to 25% of the project cost.**
- **Sustainability Focus:** Features green energy integration and a “no-dig” environment through integrated underground utility corridors for uninterrupted operations.
- **Selection Process:** Projects are selected **via a challenge mode**, prioritizing states that implement investor-friendly reforms and effective single-window systems.

What is “Plug-and-Play” Industrial Infrastructure?

- Plug-and-play infrastructure refers to **industrial parks that are fully equipped** with all **necessary utilities** and regulatory clearances before an investor arrives.
