

Why UPSC Mentorship Program is Important?

August 5, 2026 • vajiramandravi.com

Preparing for the **UPSC Civil Services Examination** is a long and challenging journey. Every year, more than 10 lakh candidates apply for the exam, but only a few thousand reach the final selection list. The competition is tough, and simply studying hard is often not enough. Aspirants need the right strategy, proper planning, continuous motivation, and expert guidance throughout their preparation.

Many students begin their preparation with great enthusiasm, but after a few months, they become confused about what to study, which books to follow, how to revise, and whether they are moving in the right direction. This is where a **UPSC Mentorship Program** becomes important.

What is a UPSC Mentorship Program?

A **UPSC Mentorship Program** is a structured guidance program where experienced mentors help aspirants prepare for every stage of the Civil Services Examination, including Prelims, Mains, and Interview.

Unlike regular coaching classes that mainly focus on teaching subjects, mentorship focuses on the individual needs of every student. The mentor regularly interacts with the aspirant, tracks progress, solves doubts, reviews performance, and suggests improvements based on the student's preparation level.
